

Level tomb

I want to know, if it is possible to get the 1 level tomb? That one that makes you get one level?

The reason is that when you get on a really high level, then its really hard to get one level by only buying 200 xp at the time..

And why did you even remove it? I've been gone along time now, things have changed, but why?

Maow

That first, you need to buy it once, then you'll get a token (or whatever) If you buy another token, you get a prize...

So it would effectively cost 32K not 16k? and if so then the issue would be what if the map changed or the player left the server or the server crashed?

In short the leveling tomb wont becoming back for sometime if ever.
