Yo,

I didn't find my 2 favorite races so I started looking for em, found em so am kindly asking can they be added to the server 🙏

Namely: Shadow of the Void and Ichigo Kurosaki(not hollow ichigo wich kindah can be found alot and is no toooo easy to play) I got Shadow of the Void in a race pack, maybe you want to add some more races from that racepack aswell 🙏

[code][Ichigo Kurosaki]

```
required = 0
```

```
maximum = 0
```

```
restrictmap = &quot;&quot;;
```

```
restrictteam = 0
```

```
restrictitem = &quot;&quot;;
```

```
author = &quot;#kick!&quot;;
```

```
desc = &quot;*VAIZARD*&quot;;
```

```
spawncmd = &quot;es wcs_restrict event_var(userid) knife&quot;;
```

```
deathcmd = &quot;&quot;;
```

```
roundstartcmd = &quot;&quot;;
```

```
roundendcmd = &quot;&quot;;
```

```
preloadcmd = &quot;&quot;;
```

```
allowonly = &quot;&quot;;
```

```
onchange = &quot;&quot;;
```

```
numberofskills = 5
```

```
numberoflevels = 3
```

skillnames = &quot;Getsuga Tensho!|Shunpo!|Agility!|+HP|Regeneration&quot;;

skilldescr = &quot;Do more Damage with your Zanpakuto!|Use your Shunpo to evade enemy's sword!|+Speed|Hollow's Carapace|Vaizard's Regeneration!&quot;;

skillcfg = &quot;player\_attacker|player\_victim|player\_spawn|player\_spawn|player\_spawn&quot;;

skillneeded = &quot;0|0|0|0|0&quot;;

[[skill1]]

setting = &quot;es\_xset wcs\_multiplier 1.2|es\_xset wcs\_multiplier 2|es\_xset wcs\_multiplier 3.5&quot;;

cmd = &quot;if (server\_var(wcs\_dice)

I would be more than happy to test the race 😊

Think about it 😊

hehe, it's not just testing, it's checking the races, look what's broken / what not, adjust them to our server standards and add effects.

This way 1 race easely takes up an hour, depending how broken it is ofc, that 100race pack, is full of broken ones. I had already looked into it, and the first 20 were full of bugs, so i never bothered going any futher..

But as i said, i'll look into it in due time
