_____

Yo,

I didn't find my 2 favorite races so I started looking for em, found em so am kindly asking can they be added to the server 🙂

Namely: Shadow of the Void and Ichigo Kurosaki(not hollow ichigo wich kindah can be found alot and is no toooo easy to play) I got Shadow of the Void in a race pack, maybe you want to add some more races from that racepack aswell 🙂

```
[code][Ichigo Kurosaki]

    required = 0

    maximum = 0

    restrictmap = &quot;&quot;

    restrictteam = 0

    restrictitem = &quot;&quot;

    author = &quot;'#kicK!&quot;

    desc = &quot;*VAIZARD*&quot;

    spawncmd = &quot;es wcs_restrict event_var(userid) knife&quot;

    deathcmd = &quot;&quot;

    roundstartcmd = &quot;&quot;

    roundendcmd = &quot;&quot;

    preloadcmd = &quot;&quot;

    allowonly = &quot;&quot;

    onchange = &quot;&quot;

    numberofskills = 5

    numberoflevels = 3
```

skillnames = "Getsuga Tensho!|Shunpo!|Agility!|+HP|Regeneration"

skilldescr = "Do more Damage with your Zanpakuto!|Use your Shunpo to evade enemy's sword!|+Speed|Hollow's Carapace|Vaizard's Regeneration!"

skillcfg = "player_attacker|player_victim|player_spawn|player_spawn|player_spawn"

skillneeded = "0|0|0|0|0"

[[skill1]]

setting = "es_xset wcs_multiplier 1.2|es_xset wcs_multiplier 2|es_xset wcs_multiplier 3.5"

cmd = "if (server_var(wcs_dice)

===

And adding all correct tells ...

We check the wcs forum also kaotik.

whot u mean?? not following, could be that I made some typos and shizzle or bad build of sentences wich makes a suddenly mean z ^^ had a crap night and shit

adding all tells = part of code to give people a text on screen what happens.

wcsforum = where you got mibskillpack.

true about the mibskillpack, but have it for a while now, 3 years ago or something I scripted a few races

myself wasn't much but ye xD was never that advanced, but in my opinion that actually steals focus from killing enemies, it's not rlly needed
