A WCS Sssugggestion.

Posted by VooDoo - 07 Jun 2011 14:25

_____

Hello, my suggestion is to make it so that if you change race then instead of killing you, it should give a message that says "Your race will change next round"

then the next round you will have your new race and you avoid the suicide..

It is most likely already been mentioned but I scanned the forums for it and couldn't find it..

Thanks

_____

think ive seen this on other servers, really handy, although an alternative would be once your dead go spec to choose from your vast selection of races

like the idea, but i'm afraid i'm not capable of helping with that, i can't script in the actual language of the wcs mod itself (Python).

You can suggest it on warcraft-source.com

hmm, I've seen many servers that do this, when I had my Python WCS server it was set as changerace on round end by default, anyway, ill read about and if I find anything ill be sure to PM you

Thanks

_____

That would be nice thanks

Atm got my exams, so can't spend too much time working wcs atm

Yeah saw it on there yesterday. So we just gotta wait for the new release

Cheers
