

Nevan - ultimate

Posted by Elcepelce1 - 03 Jul 2011 12:58

Hey, today expd Nevan and find out following:

ultimate lvl 1-3 - get terrible speed with invis and then keep it till end of the run, even visible

ultimate lvl 4-5 - loose the speed after getting visible

tried to reset skills and placed only 3 points on the other map and worked again, with 4 point loose this advantage. Do not know if the keeping the speed after invis is some kind of bug.

Does the same for me so I just keep the ultimate at level 3 because I like the speed 🤔
