

Fun Map - does anyone remmember fun_allinone?

Posted by reacT - 13 Aug 2011 15:41

Hey guys just posting here to get everyone's opinion on something, for those of you who have played fun_allinone you will know what i'm talking about, for those who have not;

Fun_allinone consisted of a map where it was possible to choose the "round type", this would typically consist of, teleporting to a "fight arena" in accordance with the specific choice in question. basically it packed several different maps all in one, awp, scout, deagle, knife, nade, shotgun etc... typically I found it fun to play on, and i feel that if i were to make a map similar to this (which is my intention) then maybe it would help breathe some "life" into a somewhat stale(my opinion) map rotation.

Thoughts, comments, suggestions, criticisms all welcome, just wanna get a feel on what you guys think?

Isn't that something for a minigame server? 😊

Well yeah, but i'm sure if people don't like it, they just won't vote it on 😊
, It would simply be an option, should people get bored of the same maps 😊

I remember it 😊
Was an awesome map but I don't think it would work amazingly well on wcs since the speed increases etc so people wouldn't have a chance to get to the teleporter

You'd need to be able to disable races or reset speeds to default at the start so that choosing the game type would be fair 😊

Thoughts: Epic idea

Comments: Love the idea and if im honest i think it would work GREAT on WCS

Suggestions: I SUGGEST THAT YOU ADD A BUTTON THAT SPAWNS A TORTOISE!

Criticisms: You dont have any criticisms from me 😊

Its a minigame map though 🤔

It isn't a good idea in my opinion, in the places where you don't get weapons and you have to do a surf course to get them, people would just use races that give you weapons and they would just get free kills 🤔

it is a good idea, but not for a wcs server
