Hey, welcome to the forums!

1) You were accused from aimbotting by players before i popped on.

2) Youre ping was 0, can be caused by hacks so i banned

3) I unbanned cause people said it could be cl_cmdrate 0 2

4) I asked to turn it off several times and you didn't change

5) Ban.

Well, i didn't ban you for that? It's just if you got like 6-7 votekicks /11

I give some extra attention, that combined with your ping made me ban you.

Dazzler. Even if we somehow managed to 100% clear your name of any of the server related things, I'm 100% sure Tunes would still keep you banned for the php injection threats.

so heres a hint next time your banned do your self a favour and be polite.
