

nightstalker

Posted by Gimp - 10 Sep 2011 22:01

id like to suggest that the extra damage done by nightstalker race be lowered. it seems to put out +10 dmg every single hit, which well has the desired effect but ends up in pissed off people. i think there was another topic about this and the percentage chance was lowered, nt sure but if there was not much seems to have happened 🤔

i could be wrong though, it might just be the much loved ashen (lol!) being his usual self 🤔

thanks.

edit-yea 100% chance that it does 10 damage. le evidence: imageshack.us/g/717/screenshot20110910at230.png/

It does 10 damage practically every hit, even though the chance is supposedly 20%

What pwning you?

And also it was lowered and I think MentoZ tried to put a chance for it to happen but it didn't work 🤔

it has already been lowered in damage and chance twice.

When i've been using it, if opponent does not have extra hp, i normally kill them with inbetween 2-4 bullets with m4 without a headshot, 9/10 times the kills i get with nightstalker are due to the extra damage, unless i kill outright with a headshot. maybe it could do with being lowered.

=====

Agree with that 🤔
maybe like 4 extra dmg with no % or 10 extra damage with like 15% or maybe a slight bit higher 🤔

pwning everyone with op races 😊

an doesnt seem to have worked liquid 😊

Tbf the majority of the time he doesn't go on the server because people constantly whine about these things even though he has completed all the race
