We could get a kitten for Amy, a mentos packet for mentoz that also has the word noob on the back since thats what he is 😊
; We could get a voodoo doll for voodoo and a cow for Mr.Moo xD I can't think of anymore right now lol

Usefull intel Substick, thanks for that ... 😊

Another problem with skins is that not all of em are Wcs compatible. Some skins just completely dissapear when you use a race with invis on em.

Nice idea though

I thinks its a good idea hehe i would like a kitten outfit....

the server is messed up as it is and no one is fixing it so i dont think a couple more skins going to do it any harm lol 🤔

hmm even more dl-things on the server would let him crash more and more, and the crashes are toooo often 🤔

but replacing some skins would be a good idea 🤔
