Or you can remove and add it the the classic gungame. The map fit more there than at DM:)

Thanks for fast answer

Glass on GG server will make it last all night... lol

No thank you (I speak personally ofc, if everyone likes it we will add it there...)

Glass maps are pure ownage imo, I trained my skills using glass maps with RKO before most of them stopped playing (the term admin abuse never existed to them, so vik mostly got slaughtered and it was a great laugh). When I get my new mouse I say BRING ON THE GLASS! 🐸
