I can't see how we can get the BC2 server populated again, but I play on other servers. You can add me, slaB 🙄

Also have it, what made me quit playing it, was the sniper lack of prone position... and although I raised my voice in their foruns and lots of other people too, they will never code the feature or at least unlock it, cause I think its there, buggy (as lots of other stuff in the game).

also due to my lack of time, i'm into other games atm.
