

## Reserved Slots

Posted by VoGon - 07 Mar 2010 21:42

---

Like previously mentioned, we have reserved slots on the server.

At the moment it seems the reserved slots are never used when the reserved slot owner is not playing so it means if we add 32 reserved slots the server will sit empty until the players join.

So we will be forced to do it in a way that only those that subscribed a donation to the BC2 server will have one.

We will be putting a donation subscription to BC2 on our donation page.

If we do get a lot of players, we will end up having more than one server, it makes no sense to add 32 slots so that when 3 are playing they play alone.

This game is made for 32 players, it needs to have a lot of ppl playing on it, so cutting it down to 5 or 6 doesn't make any sense.

Well, since we changed it to conquest, the server has had a steady 24 players each time I have joined, so never had any problems with connecting, but if that was because I had a reserved slot I dont know 😊

You search for the server in the ingame browser. Dont know the name of it? Its in my signature. Following Vogon and DS on the forums in a stalking matter is not a good idea. For persoanl messages there are other forms of communication...

BTW is your name taken from the movie with the same name or just that you consider yourself a predator?

Oh please, you've been warned wayyy to much.

And if you had the game.. you know there is no "manually" connecting to a game server..

geez, why do I even bother...
