

## The league and fixtures.

Posted by eskimo - 05 Sep 2010 13:28

---

The league tables have been sorted. First week fixtures are up. It is up to the players to arrange when the match is played but they will have to post the time and day on here allowing the chance for people to spectate. Also the matches will have to be played by the following Saturday after being announced. The match result must be posted on here and sent to me via steam. The league set up is simple, play all of your five games, if anyone shares the same amount of wins, we do a play off between the positions. When the positions are finalized players will then play the players of their respective position from the other league to have a final placement.

Here is the league table and first week fixtures:
