moment of truth!

Steam Name: RēāŁı y

Steam ID: STEAM_0:0:37797854

Reasons for joining: First of all because i probably love twk, If a player is needing some sort of help, i do my best, and im kind to other players, i try to make people understand the rules if they break them instead of just trying to votekick them asap or contacting admin (ofc not if cheater) and im also active on the forum and try to post new topics/reply to others without exaggerating and being a post whore and i also guess that 92 hours is alot, with the thought that i bought new account in december. To u that think that im not worthy the possibility to wear the twk tag and think i will bring shame over the clan again; i wont, and i have explained my side in that case and i have said my apology, and if u are just going to talk about how i got banned and all, pls dont reply 😊

Servers where you play: * WCS

* Surf Deathmatch

EDIT: oh yeah, thx for reading 😊

Your humble servant
