

## Finally, I wanna join!

Steam Name: Boblike

Steam ID: STEAM\_0:0:23475007

Reasons for joining: I've been playing at the Twk wc server since almost 2 years and became friends with some members. But all the days and nights I have spend at this server, people who wont follow the rules appeared. I want to gain some respect at the server, to make it a even better place to play at (is this even possible 😊)  
) without depending on other admins to be randomly online.

Servers where you play: CS:S TWK warcraft source server 🔴

I'll hope u guys accept my application and that we'll meet at CS:S soon! 😊

Welcome to the forums Boblike 😊  
Took you long enough to find it though since you played almost 2 years on the server. But you finally made it 😊

Seen him allot on the server and he's a nice guy (as far I know) and follows the rules 🍷

Good luck with your application mate
