Steam Name: Penguin

Steam ID: STEAM\_0:0:43978405

Servers where you play: Warcraft server

Reasons for joining:

Well I've played on the WC server for quite a while now and wanted to post my application of becoming a twk member. I know mostly all the twk members and I get along great with them on the Warcraft server. Everyday I see the twk tag wanting to join badly:) I can also help out with any c#, c++ and VB stuff. I like making maps so I guess I'll make you guys a few for each of the servers you have yeh!.
