Should you folks be looking for yet another responsible person to help you keep an eye on things in your survival minecraft server, I would be honored to assist in any way that I can. I try to conduct myself appropriately at all times, yet still remaining fun and likable. If nothing else, I will continue to happily assist you from the front lines. As a player.

Postal....OUT!

Agreed so much

P.S having some mods under cover(normal rank but they have all of the commands) would be really good sence some people are smart enough to tell they have an hacked client from experience lol
