Hey, just joined the server looks great, community's mature the mods are into it. Better than most other servers, strong community, no ones pissy. Locving the unlimited map, simple spawn exit. I'd love to have mining rights, i'm definately here to stay 😊

Thanks,

Connor

I would like to let the Admin know that this person was ban for hacking. He dug a hole straight down to diamonds and made his home in a 2 high tunnels that led straight to multiple diamond veins and also this player was able to tell where vanished people where while other players could not.i also thought vanished players cannot be seen at all =/
