Please, post here your login name for whitelisting.

Rules are simple, build (its a free build server), and DON'T grief others work.

Offensive work (like penises and stuff) will be considered offensive (and childish), will be removed and user who created them banned forever (no 3 strike rule here)

Griefing also wins a permaban.

Misbehaving, guess what, permaban

I believe that covers it for rules, no into commands

Regular players can use:

/home

/sethome

/warp (abusing gets a kick)

/spawn (guess.. abuse and kick)

/mail (send and read)

/back (in case you die or tp to a stupid location)

/item

/heal

/tree

And guess that's all folks

I won't support economy, hey, its a free build server..

Please, be creative!

World renderings can be found at www.twkgaming.com/twkworld and they are not (yet) automatic nor realtime, they are rendered on a manual basis.

Now, have some fun!

And thanks redo97 😊

Firstly You need to make a post in the "hellloo" section to introduce yourself 😊

Then you need to post the appropriate application which looks like this..

Requests should be made in the following form:

Steam Name: (the name you use on servers)

Steam ID: your steam ID (can be found by typing status on console)

Reasons for joining: (brief explanation on why you want to join us)

Servers where you play: (Self explanatory)

All requests go through an approval process by our admins, so expect some time for us to decide on it.

(You can just click edit and insert the correct format for applying for the community, its alot easier)

Secondly, you need to make sure you post in the right section :p I did the same thing when I first joined, I'm sure one of our lovely admins can move this to the right section 😊

To get it right next time, on the tabs above, click "index" then choose the correct thread i.e. "General chat" once your in there, click the tab "+ new topic" which is just above the Title of the thread (next to subscribe and favourite)

Good luck, stay active and have fun! 😊

Mr.Moo

I think he wants to join the minecraft server.

Hi.

My name is Stan, but my username is Aplasado. Redo97 is a near friend of my, and he has said that i'm very good at building things, but i have to be a little bit better in survival. But i think that he takes a little bit wrong, but thats me. I love to build "BIG" things, with good designs. If there is something you want to know, please send a message to me, or redo97. Please talk to redo if there is something you wonder about me, so secure the information.
