

ATTENTION: SPLEEF!!!

Posted by NEZ - 16 May 2011 15:52

A new spleef Arena has been made by me, Xenadoboi and Gimp (oGimpo).

it is just past m3ntos' house i believe.

For any of those who are unfamiliar with what spleef is, it is a game where you and any number (for the rules of this arena we have st 4 people as a max) of opponants enter the arena with shovels (we have supplied lots of diamond ones!).

the ground is made of snow, and the aim of the game is to dig under your opponent and make them drop into the lava! it is incredibly fun to play and i suggest you all do!!!

P.S., if many people like playing spleef, i was wondering if perhaps we might be able to set up a/some spleef tournament/s.

Have fun everyone ! 😊

another game i think would be fun for the server is Golf!

snowballs dropped (with q) on ice around and/or over obastacles

such as the golf Xephos (Lewis) and Honeydew (Simon) play in these video's of theirs:

I can talk with Mentoz and simply transfer the golf map or part of it to the server using woldeditor =D
