

Minecraft server updated to 1.6.4

Posted by Tunes - 26 May 2011 14:37

Hello minecrafters, well Notch did it again and as usual everything messes up on each update.

The server is up with version 1.6.4 AND plugins, but beware is using a very unstable craftbukkit version and anything can happen.

By any means, please, if you get disconnected, map crash or something else, please post in this this thread so I can look it up.

I'll keep an eye on the server during my regular 18 hours of my computing day.

Thanks for everyone playing there and making awesome contraptions 🍷
