

Conspiracy Theory

So, a little while after I first started the server, me and a few other members made a giant cupcake next to Woodoo's Giant Steve. It then got EVILLY GRIEFED by Gimp and Nez (I think 🤔). And excuse for the lava was 'It's just the hot sauce,' which then spawned the 'Waiter, waiter, there's lava on my cupcake' signs.

Well, today, as I was re-watching the first Episode of Friendship Is Magic for the umpteenth time, I noticed that one of ponies eats a cupcake... With hot sauce on the top.

(Hooray for really crappy quality)

Hmm... What a mysterious coincidence.
