Tbh he didnt do it on purpose so I think a harsh warning would be enough 🤔

I dont think its because of the tnt because someone here blew up about 30 stacks of tnt at once and it didnt even lag :O

And even if it was because of him unlike alot of people he is honest and trusted 😊

maybe it wasnt tnt. maybe it was creepers starting a war. maybe the server didnt crash from explosion, but from processing too much creeper ai 0.0

DOWN WITH CREEPERS!
