Sorry folks, last 48 hours were spent driving, believe it or not, crazy stuff and only now got ma hands on the interwebz.

The server is restarted and hopefully working

Creeper1555, I won't ban you, as I cannot prove you killed the server, anyways, I don't really care if you blow the hell out of the map, its its purpose.

I don't, i did it first time on accident and never did it after that. All i know is that your entrance of your place is destroyed now
