dewy lives 🤪
!!! havnt seen him in ages, naturally i assumed he had died of natural causes that would later be

discovered to be a sneaky german man with a murderous habit and author to several books including "Nein Fra Hatzfuf" and "How To Eat Your Family With A Rusty Spoon" co-author salad fingers.

True 😊

last time i spoke to him he was really busy with that magazine of his thats why he hasnt been on css lately 😊

great mod but meh i dont really like pokemon might try it out though seems great fun, will have to fix that HD water mod though 😊
. kind of crashes with the TMI mod installed lol
