

Minecraft 1.8 is out!

Posted by Tunes - 14 Sep 2011 10:12

Well, according to notch, the update will rollout officialy today

"We just uploaded Minecraft 1.8, but minecraft.net isn't up right now because of web ops stuff"

But the damned site has its ups and downs, so expect delays with the update, later tonight I will see what comes out of bukkit.
