

Minecraft 1.9 pre release 2 is out!

Posted by Tunes - 29 Sep 2011 15:16

Get it here

t.co/4bhb6ie6

Server avail here 78.46.53.135

In order to play, go to the .minecraft/bin folder in your windows profile, copy paste the minecraft.jar (for backup and return to 1.8.1) and copy this over it, restart the client and got for it!

A public test release of Beta 1.9, includes almost all the intended features publicized by Mojang. These changes can be found here:

www.minecraftwiki.net/wiki/Upcoming_features

woo wikipedia!
