If anyone is going to attempt this world, make sure you post the world once you've finished so we can all take a look at what we've all done!

I believe [www.minecraftworldshare.com/](http://www.minecraftworldshare.com/) is a good site to do this

I had to restart cus my second ice block didn't turn into water for some reason D: Does ice not turn into water when it rains or sommat?
