

Minecraft 1.9 pre release 4 or 1.9.4 is out!

Posted by Tunes - 13 Oct 2011 14:44

Get it here while it lasts!

t.co/OTGZst6b

Server available at mc.twkgaming.com port 25590

As usual, get the jar, rename the current jar (the one in the user_profile/.minecraft/bin)

join in and lets test it out!

Due to the abnormal hits in this topic, as also being in the first google page for minecraft 1.9.4, the server is back online @ mc.twkgaming.com port 25590 (the is REALLY needed).

However, I don't deal with pirated servers, so anyone who didn't bought minecraft is out.

What if i didnt buy it, my dad bought it for me

Does it count?

Trolololol 🤔
