

minecraft idiots

Posted by Gimp - 31 Oct 2011 22:38

Seeing as so many stupid kids can't work a bloody forum for access request, was thinking would it be possible to make a violently bright link to access requests in the homepage? only if it's not too much hassle but it would save me from smashing my head into the wall to the point of concussion

No.... No.... its definitely their fault... they don't take the time to read the bloody forums.. lol

I mean, I post in the Hello section but that's only because the Hello section is default and I forget to click the drop down menu every now and then.
