

I OBJECT!

Posted by Creeper155 - 10 Nov 2011 00:34

Tunes, mate lava is a part of my survival, and a part of my greifing. So why would I get banned for putting to much lava? Mate, you don't have to clean it, it shows what the main part of this server is, so why should I get banned for nothing against the rules, at spawn you gave Gimp permission to post a sign that says GREIFING IS ALLOWED! And that's what I do. Yet, you have to be hypocritical. I'll use a flint & steel next time? HMMMMMMMMMM? Read dis plawkzorz

If the admin told you to stop, it is his server, so you should have listened. Knowing tunes, I'm really sure he had a valid reason, but feel free to complain, but you may not get very far by speaking like that.

Have you seen your spot recently peanut? I've cleaned all his crap but its a complete mess

Point is, I'm just tired of having stupid abnormal ladders of stone and lava all over the map, they do not bring anything cool to the gameplay, look pretty stupid and awfull, besides, you and maxmekker also done the same gig to the creative map, you might think its absolutely wonderful lava design, but for me I'm tired.

So, I don't give an eff if you object.

Banned, go find some other server to make those wonderful masterpieces. I can be more creative when I piss at a wall.

I know griefing and war are allowed in the server, but I got tired of cleaning your crap over and over.
