

Make the enchanting table to type with latters!

Posted by FroggyFace - 26 Nov 2011 18:46

I'm sure that you guys tried to Enchant but the table shows annoying marks...

I will show you how to replace those marks with latters 😊

1.Download this .png file!

www.filedude.com/download/ERnsyxsm3h1118a0b7fe

2.Go to C:UsersYOURUSERAppDataRoaming.minecraftFont

3.Replace the file C:UsersYOURUSERAppDataRoaming.minecraftFontalternate.png with the file you have downloaded

4.Give Froggy all your life savings or just enjoy the annoying marks free enchanting table(Personaly i like the first one but you can go with the second one only 😊)

Do this, as there is no downloading required:

* Close Minecraft if you're running it.

* Open your minecraft.jar file with your favorite zipping archiver (WinZip, 7zip, WinRAR, etc)

* Locate the font folder.

* Rename **alternate.png** to something else.

* Copy **default.png**

* Paste the copy and rename it to **alternate.png**

* Close your minecraft.jar and run Minecraft.

Problem solved.

Problem solved.

Thats longer, i basicly took my default.png and renamed it to alternate.png and uploaded so who ever does it my way doesn't have to do that step 🤔

edit-wth do half of those things mean lol "light wet creature darkness";

They are a random sentence selected randomly from a list of 55 words, these consist of:

THE WIKI wrote:

the klaatu berata niktu xyzyy bless curse light darkness fire air earth water hot dry cold wet scrolls ignite
snuff embiggen twist shorten stretch fiddle destroy imbue galvanize enchant free limited range of
towards inside sphere elder cube self other ball mental physical grow shrink demon elemental spirit
animal creature beast humanoid undead fresh stale

Apparently one of the reasons that "Bethesda" sued mojang is that some of the combinations
you can get are "The Elder Scrolls" or more stupidly "Ignite/Destroy The Elder
Scrolls".
