

twk-p

just a suggestion that maybe give twk-p the right to kick people? a nice way to reward people who have stayed loyal to the server for a long time and a realistic title for other players to aspire to, because lets be honest, no noob from mc is gonna be made a mod 🤔

I saw the title and thought it was another 'tard that couldn't spell TWK-R xD

too much people are in twk, so everyone gets the right to kick? would be very unfair for people who stayed for so long and someone who joined "yesterday" got the same rights

🤔

I think he's saying normal people get TWK-R, and special people get TWK-P (whatever the P stands for), so new people won't be getting the same rights as older people

lol chif an ye thats what im saying 🤔
think there is only 1 person in twk-p which is space an hes been with twk mc for like 6 months so i think it would be fair to reward such loyalty 🤔

incase people are breaking the rules when mods are not online 😬
We only have 2 or 3 fairly active mods atm

hummm

IDK, that way they would be become mod anyway, cause its the only thing mods have above regulars...

P stands for premium... but atm the mods for premium are bugged..

have to think about it...
