Thats why i dont want anyone to work in the casino...

Is it that hard to keep 2 blocks over the chest so people wont open it?

I unbanned him, looks like I gotta find a way to manage bans'n'stuff like we have on CS:S ... food for thought.

I'll leave him unbanned ftm, if he craps all over again, one month in the jail..

BTW.. Jailing players is a lot more fun 🤔

/ti ogimp jail 🤔
works like a charm

If mods don't have the command, let me know

Jail is fun, cause you get into a spot near spawn house and there is no way to get out or run any commands 🤔

the command is /togglejail (try /tj, it might work) nick jail

Don't know atm if mods have it, but I can give if someone gives the trouble to test it.

It's a lot funnier to jail suckers and ban them 🤔

It's also relogin persistent 🤔
