

frogy's ex-admin powers

Posted by Gimp - 21 Dec 2011 20:14

Yes he sucks with worldedit but would it be possible to give frogy his admin powers back. When he did have it life in the mc server was much easier. He helps with the day to day needs of the noobs, makes delicious additions to spawn, available if needed etc etc.

Having him as admin was soooo useful, please consider giving him admin back tunes. tyty
