max's bullshit reason is because froggy was there. weve warned creeper before about randomly attacking people and told him that if he does it again he will be banned perm. all i saw was a random assault on my base so i banned, max's crappy reason is enough for an unban. tunes if u can as soon as plz, and perhaps give x-mods /unban so we can dish out set time bans?

thats not a reason. cosmo attacked you because 3 of your faction invaded us fully suited up with weapons out so basically an assault which weve told you not to do randomly as its making people leave.

dont be a cheeky shit, ive just asked tunes to unban you as soon as possible, if i hav the command you would be unbanned.

Thank you gimp, and i'm being cheeky because I did come full suited with weapons, but I didn't attack, I said hi which isn't verbal assault either. 🤪

Any way thank you gimp.
