

Wow again

Posted by Space_Cowboy0001 - 13 Mar 2012 03:57

Ok I'm tired of getting grieved. somehow carb and tom who both have X-ray get into my base and grief my 2 9 button 15 pin combo locks which took me a month to make and my base. i thought being a mod as gimp said to me would make people kinda scared to grief but i guess not. 8th time I've been grieved and funny thing is this base was over 200000 blocks away from spawn. not trying to make this a whine or anything i just think that in the future all factions should maybe have a default of peaceful and ask to be survival instead of the other way around. O and i f who'd carbrini's faction and tom the owner of Flawless faction his name is TheNewCreeper1555 Tom704. Just thought that was kinda funny but i guess now time 2 move on to the next starting place for a base...

I would like to inform you that I do not have x-ray because I deleted it from the files the last time I got banned, and TWK is my favourite server and only server that I go on so please unban me. Survival is survival. If you get grieved tough luck, deal with it and as I have seen Maxmekker10 and Creeper1555 got away with it atleast 40times. I've not complained because its SURVIVAL.*hint*: survive as much as you can until you get looted or grieved so thats a few points to unban me plus: when I was at Warriors base I needed lavaso me and Tom704 dug down outside their base and that's another reason to be unbanned. So Tunes could you please unban us or that will ruin our fun of playing minecraft. All that money down the drain.

Carbrini, I think I'm safe to say that you aren't going to get unbanned from the server. We are sick of the complaints about people like you so its a no, go find another server to cause trouble on because Tunes and several others are frankly sick and tired of people like you.

Thanks 🍌

if i saw the x-ray holes that could help your case. carbs been loyal to the server and i think that earns him a chance to redeem himself (thats if hes found innocent in this case)

think everyone is being a tad hostile due to the recent discussions 🙄

Yeah, that Xray trap was what I found originally (completely forgot about that), then there was also the lava digging I found that carbrini was talking about, and when I was making a base with Tom and carbrini, their mine was questionable, also, a mine under carbrini's base was questionable too.

Also, just because another person "got away with it several times" doesn't mean you're entitled to too. We realised that we allowed Max and creeper to stay on the server too long, and we're not gonna tolerate any more hassle. (well, at least I'm not anyway)

One thing to add is that you do x-ray not to mention you heavily grieved my base, the rules says you need a reason to grief and that you shouldn't x-ray...

I have 3 things to say...

1. Tunes is not your personal slave, if you want to be unbanned.. politely make a request.. not a demand.

2. The people on the server do not all revolve around you, its not all about your fun, its about EVERYONE's fun.

3. What money is going down the drain?
