

Server Repopulation :D

Posted by Gimp - 01 Jun 2012 18:13

Would be great if we could get the minecraft server nice and popular 😊
I've looked around the other servers that have a similar pvp, factions, mcmmo style and im glad to say
they suck compared to our glorious mc server 😊
(not just saying that)

Could y'all help out by voting for us at minecraftservers.net/server/4743/ thanks 😊

Also in the process of making a video for the server (never made anything like that before but heck ill
give it a go 😊

Thanks folks, the server would be nothing without all of you!

I feel a bit sad my life is forbidding me from playing (anything) atm, hope soon I get things a bit more
clear and I come again into the server!

Thanks everyone once again!

Hehe gimps our saying grace once again 🙏

. I just voted and advertised the heck out of twk off of servers that have a average of about 50 players on
🙏. Hope that makes up for me not being very active on the server. My computer broke so I'm sending this
off my phone, lucky for me though I just got a iPhone so I'm sending this off of that. Thanks for the great
year so far on twk 🙏
