

Minecraft 1.3

Posted by Tunes - 01 Aug 2012 15:16

Well, just got the time to get my hands on a graphical computer and noticed that Minecraft has already been update to 1.3 and then again into 1.3.1.

ATM there is no bukkit, sooo play singleplayer for a few hours until it comes out.

Unless there is something wrong with the release, tomorrow we'll be updating the server, I'll also be on TS to help speed thing up.

Cheers

FYI, I will be busy until around 3-4pm tomorrow, but I should be on the team speak from around that point onwards (hopefully).
