

A good night for TWK

Posted by iMattR - 10 Sep 2012 00:57

I'll keep it short, because it's late and I'm tired. But lately, a few of us have been concerned about the lack of players on TWK - and I'm quite happy to report that literally two minutes ago, the TWK Minecraft server had 50% of it's slots (15/30) used which is a damn good rise from what it's had for a while.

Screenshots, or it didn't happen? Way ahead of you: <d.pr/i/FOXJ>
