Excuse list:

- Work's been crazy;
- Got placed on an intense week long course;
- Blew up my lappy;
- Reinstalled my lappy's OS's;
- Blew up my desktop;
- Reinstalled my desktop's... Half of the OS's...;
- Mother inlaw's computer blew up;
- Turns out someone stole her video card;
- Reinstalling an OS on her computer has been very challenging;
- Also scavenged her a video card out of a spare computer...;
- Training my wife how to drive;
- Her driving exam is on the 27th;
- I have 4 more dental appointments coming up;
- Apparently broken teeth are a big deal...;
- It seems by the time I get to sit down and relax it's time for bed.

WHEW! That about covers things in a nutshell.

Oh! And my Jeep had a flat the other day. LOVELY!

I'll find some time to drop in I swear 🍷

Miss you guys!
