

Banned for duplicating?

Posted by Minecraftwyatt01 - 04 Jan 2013 18:56

Hi when i was playing on your awesome server today, my mouse glitched out again and i put down some iron ore that i had just mined. Then when i was mining it to pick it back up it logged me out of the server for duplicating. 🙄

I was not duplicating. so plz if you want unbanned me. 🙄

Sorry minecraftwyatt. That's bull.

I watched you, and I logblocked the area. You've been duplicating iron there for a while with nerradmw.

You've both been banned for 24 hours. When an admin comes on you'll have 90% of your iron revoked as well.

If this happens again, your ban will be permanent.

When i logged in all that iron ore was there. Nerradmw but it there when i was gone. The iron ore was blocking my mine shaft. So i removed some to get to my mine. when i was mining i mined some iron. Then when i was done mining i put the iron ore back to its original position were nerradmw put it. Then my mouse glitched and i placed more iron. i mined it and it happened again. Then i was banned. this is the honest truth and if you don't believe me oh well. I know what really happened. If you think otherwise that's ok. ill see ya tomorrow

wyatt, the screenshot clearly shows you placing and breaking iron 5 times in 5 minutes (the whole area).

I also watched you do this.

Lying will get you nowhere.

you know i asked if i should incinerate that or not you wouldn't respond

i even took a snapshot of it as an example

It was the logs that did it. Not the iron ore sitting there.

Placing iron ore to make it look cool is perfectly fine. Repeatedly placing and destroying it is duping. And, therefore, a ban.

See you both tomorrow, it's only a 24 hour ban.

nerradmw ask me and run if duping iron was cool to level mining. me and rena both said no. he fought a bit about the rules but he said he would get rid of it.
