

Server Reset

Posted by nuckyi - 18 Feb 2013 02:08

I read some stuff the other day about resetting the server. Is this going to happen and if so when. Will we be able to get some stuff moved over or will it be a fresh start.

This has been asked quite a bit.

We don't know if the server will be reset, that's up to Tunes, but we think it should be reset for the following reasons:

- The map is starting to look rather horrible, with destroyed houses and crappy landscape, so we think a new world would be good
- Give everyone a fresh start, since this world's been going for a while
- Make the chance of world corruption on the update to 1.5 minimal
- Since there's new Nether Ores, it would be a good idea to at least reset The Nether
- Most people already have everything they need, and a fresh start can then let them play survival properly instead of just grinding

If the map does get reset, everything will go, so nothing will transfer over. The only things that stay are McMMO levels (and not 100% sure, but money might carry over too)

Well, this is something that has been bugging for awhile.

I know a few things with the 1.5 renderer will change, how much, I have no idea yet.

Also, I want to activate the large biomes thingie.

So, joining everything, and when the time arises, the map will get a reset, and ALSO will introduce a regular reset on the the_end thing, I really got tired of sooo many spawners there and I want to stop that.

So expect it to be reset only at 1.5 release.

Till then, bomb this one to cinders 🍷

cheers

You're going to regret saying that... but, your orders are my commands..

WILL DO BOSS! 🍷

Would it be possible for me to keep the two books I wrote?

Few questions.

Are Enderchest or Inventory transferring?

Is Skyblock resetting?

Will there be a new Boundary to world?

Is money transfered?

Maybe more later. :p

If players do request moving invs (not chests) and enderchest, I might well do so, there's not really much trouble.

Money will be transferred, for obvious reasons, factions and homes won't

I might define a boundary to keep players more close, I think it would bring more conflict 😊
, like around 40kx40k or less.

SKYblock does not reset, only default spawn, it's the_end and nether worlds get reset.

Don't let anyone keep anything at all.

Fresh start is WAY better.

Do it.

DO IT.

DO EEEEEEEET!
