

Minecraftwyatt01 is x-raying

Posted by MrBombe7 - 26 May 2013 17:50

I invited wyatt to see my new redstone contraption and he found my 2 hiddenlevers (craftbook-invisible) at the first try which is damn suspicious, and he found even one he couldnt know about.

It's kinda hard to prove he is xraying, of course we take your statement as true, but I checked his logs and nothing comes out suspicious.

well if you say so.

Still i think he is, and lanfyr saw that he found the hidden levers at the first try as well (he was never in that base and the hidden switches are new).

Bombe when you told me about the hidden lever i had thought there would be more so i spamed rgiht click and found them. And you cannot see a person right clicking so that what made it look like i was x raying. 🤖
