

## Minecraft Survival server updated to 1.6.1

Posted by Tunes - 04 Jul 2013 14:01

---

Well, not much to say, it got updated and looks like it works fine with a few minor plugin updates, seems to be running fine.

There are a few horses spawned around spawn, have fun! 🐾

Thankyou Mr.Tunes, I've not been active recently as I have renewed my membership on RuneScape.. cause I'm hardcore 🐾

Although I'm still reasonably active on the Teamspeak, though it does seem that nobody else is :/

Hello, no worries, everyone has a walk now and then 🐾  
, I've also been quite busy with IRL, so I just maintain the thing and go there to test something out.

It looks pretty cool the horses thing though 🐾
