

## Minecraft update 1.7.2

Well folks, there it is, another massive update from Mojang, annnnnd guess what?

Server reset will happen! 🤖

I've been quite away from the community and the server itself, hardly having time to update it and keep it running.

The spawn is a complete crap, yes it is, never seen it so awful, the next one will be a lot smaller and more integrated into the enviroment, simpler and smaller.

Factions rules will change a bit too, into what, don't know atm, still figuring it out.

Whenever there's an update from the bukkit team, the server will be updated too when all the main plugins catch up, until then, it will remain running at 1.6.4 for the time being.

Also, for people who don't see me on facebook, there's been a few changes in my life, got married, and I'm starting up a new project on the local IPTV provider, soo time will be tight, but I will spend more time at the keyboard, instead of managing projects on paper (tired of it), as so, server will get more updates and work done, but I won't be able to join into the game play soon, so I count on our admins and mods to work out something at spawn.

Until then, have fun with 1.6.4, I'll notify when the server will be ready.

Cheers.

Sorry folks, lack of time to mess with the server and spigot/bukkit keeps spitting releases by the minute, plugins are not catching up yet.
