Holy shit, I'll give it a go.. why not? lol, doubt ill be good at it though because most of the time on the survival server it is either gravity or hunger that kills me... that's just how pro I am

_____

My first line of action on single player is to find a mountain with some water and soil nearby, build a small house out of dirt (can't set on fire that way
) and make myself a farm so I think I'd do pretty well on haedcore... I'll definately give it a go!

Im really looking forward to this
I kinda hope you will be able to play it together on multiplayer xD but if one of you die that person is eliminated

My move on ssp is defo finding a village... stuff already made, just need a few items and off we go!

The time when I was playing ssp (loooong time ago) I managed to play long times without getting killed...
