So what was done to upset froggy then? Why did you not post the entire conversation ...

Saying he is abusing is a total exageration from what you have chosen to post

First of all why didn't you post the whole conversation?

Second considering you swore at aru_azif and lied to me about isn't bad enough?

People complain at you grieving which wasn't true but noooo even when i try to explain them you didn't grief you have you call me a Fu**er and say i should F my mother, if that isn't bad enough you kept flaming.

You may not belive my word because i have almost no proof beside a picture aru_azif gave me you swearing at him i would suggest ask tunes to check the logs and see who is innocent and who isn't.

As you can see you pissed me off quite well and so i wouldn't call it abusing Gohuskes.

Edit: This is the picture aru_azif sent me tinypic.com/view.php?pic=i5x4xc&s=6

Then when i've asked Gohuskes about it he lied to me telling me he doesn't know anything about that and after 5 minutes of flaming he finally told me what it means, i dont have proof to him telling what it menas though if you can trust a word of these guys that can witness: gimp, aru_azif, maxii(quite sure he was online)

And each letter means a different curse, how wonderful don't you think Gohuskes.

If they are going to start causing stress on the server, then they both go - permanently

Immature little kids who have no idea how to behave are not tolerated in this community

Froggy explaining what an abbreviated word means was NOTHING compared to some of the other stuff that came out in the conversation. Definatley not compared to Gohuskys leaving remark 🤔

You should really take time to actually explain what Froggy did instead of randomly saying he was abusing (not abousing) somebody and then only giving one line from the chat and an invisible description.
