

banned for lava griefing

Posted by Tunes - 14 Aug 2011 19:59

Hello Maxmekker10 and mchriss97, thanks for making my life so easy while I banned you for HEAVY lava/water and general griefing.

All the crap you've done gets fixed with a few commands in less than 1 minute, where you've taken a lot more to do what you've done.

I don't really understand why you get pissed with your boyfriends and come to mc servers to relief of the tension, next time, just wank.

do I need to mention you are both permanently banned??

yw 😊

im not sure i did the middle right, i didnt completely finish it for that reason, but noone on the ground would really notice it. i remember the middle as being thinner than that so..... well, i dunno 😊

i myself like to make pyramids, but my way is with redstone torches (didnt do that for yours) and it is very cool, as i attach the torch on top to redstone going around the bottom, so it makes an infinite looping circuit. looks really nice from the inside and outside 😊

Ugh, this is another one of those things that's really ridiculous and doesn't really make any sense. One of those 'Some people... *eyeroll*' things. Speaking of which,

EDIT: Forgot to ask, are they banned form both servers or just creative?
