

banned for lava griefing

Hello Maxmekker10 and mchriss97, thanks for making my life so easy while I banned you for HEAVY lava/water and general griefing.

All the crap you've done gets fixed with a few commands in less than 1 minute, where you've taken a lot more to do what you've done.

I don't really understand why you get pissed with your boyfriends and come to mc servers to relief of the tension, next time, just wank.

do I need to mention you are both permanently banned??
